

The following has been approved by Allocations and CHPS Committees and is now for Planning Council consideration:

1. Increase the FPL for all medical services to 400% FPL. This would include Primary Medical Care, Mental Health, Substance Abuse, and Oral Health
2. Increase the FPL for taxi authorization to 400% for all core and support services for clients that meet the criteria for taxi services. Criteria is identified in the transportation Standards of Care
3. Recommend that the Standards Committee review the criteria to include authorization for taxi for clients that have to travel long distances (possibly 20 miles) on public transportation, or who have to travel for an excessive time (possibly more than 1 hr) on public transportation to reach an appt.
